

EDISecure® Premium Webcam Capture and Image Enhancement Module

HIGH-PERFORMANCE WEBCAM FOR FAST AND EASY IMAGE CAPTURE

- Rapid capturing of images with perfect detail and clarity
- Sharp images even in extreme close-ups
- RightLight™ 2 Technology for best exposure results
- Motorized tracking for intelligent, automated head-following
- Compact, light, portable camera with an integrated desktop stand
- The webcam interface allows controlling the camera through every *EDISecure*® and *IDExpert*® software with live video for image preview on computer monitor
- Effortless and easy installation with very short setup time
- Perfect for all photo ID applications of clubs, associations, and companies
- Included *EDISecure*® Image Enhancement Software provides auto-cropping and maximizes image quality automatically

Capturing sharp, clear images is an essential part of making high-quality photo IDs and travel documents. To meet your needs and budget we offer different image capture modules. All of these utilize software-driven functionalities which let you capture perfect images without ever touching the camera.

The *EDISecure*® Premium Webcam Module is a compact, light and modern camera with an integrated desktop stand and an USB connection cable. Digital zoom, auto exposure, premium auto focus and the resolution of 2 Megapixel provide high-qualitative pictures with perfect image details, even in close-ups. The camera offers pan and tilt function via keyboard or mouse, remote control for up, down, left and right as well as an intelligent, automated head-following through motorized tracking.

The webcam interface allows the control of the camera through every *EDISecure*® and *IDExpert*® software. The RightLight™ 2 Technology adjusts intelligently to produce the best possible images even in poorly back lighted settings. With the included *EDISecure*® Image Enhancement Software even more functions are available to speed up the capture process and to improve the image quality: auto cropping, analysis of image quality, automatic correction of color distortions, and adjustment of brightness and sharpness. One software activation code per client is provided.

The Premium Webcam Capture and Image Enhancement Module is designed to integrate seamlessly with all editions of the *EDISecure*® Card Management Software Suite as well as the *IDExpert*® Identity Management Solutions.

THERE IS ONE FOR EVERYBODY
